

MillerKnoll

PRODUCT INDEX
NORTH AMERICA CONTRACT
AUGUST 2022

This document is a product index showcasing the products across the MillerKnoll collective of brands that are available in the North America Contract market.

The purpose of this document is to visually map the current range of products in a side-by-side view. Legacy Herman Miller Group brands are displayed on the left of the page, and the legacy Knoll Constellation of brands are on the right. Products are organized by category, and each category has been divided into subcategories to help structure the offering.

The products shown in the Ancillary category are available through the standard ordering system for North America Contract.

We hope this document helps you navigate the vast array of products available to you.
